Coppin's Lookout

Coppin's Lookout (formerly Mt Coppin Rotunda) c 1870's – South End Ocean beach Rd, Sorrento, Victoria.

The views bestowed on the way to, and from Coppin's Lookout itself are spectacular!! Present day lookout is built on the site of the original rotunda and was officially opened on 20th December 1970.

Due to the ongoing climatic conditions from Bass Strait, the lookout is in desperate need of major remediation works.

Rotary Club of Sorrento, are developing with Parks Victoria a collaborative program of works to restore the lookout.

Our club is currently proceeding with Parks Victoria through the process of registration as a "Friends of Coppin's Lookout" group.

This involves the individual to be registered with Park Connect. As Team Leader this registration has been achieved. We can now proceed and apply for "Friends of Coppin's Lookout " group.

We have worked on detailed scoping of:

- Final scope of improvements
- Materials cost estimation
- Labor/ contractor cost estimation.

On this project we are consulting with Peninsula boutique building companies based in our region

The estimated cost of the projected to date is \$120,000.

The next goal is to look at funding opportunities for the project in consultation with Parks Victoria.
