

Email: Peninsula Trail Update

I hope some of you saw the Peninsula Trail presentation at the District Conference. Or the stand in the Showcase.

I hope you saw the potential for our Rotary Clubs to be associated with such a substantial project that will bring so much to our community.

The video that I used is at <https://public.3.basecamp.com/p/bSsoivkQxxAJk3Pt99ubiGvc>

I have attached two of the materials that you would have seen – the project Site Boards, with the Rotary logo at the base, in particular, will be going up shortly.

Can you please promote all of this in your newsletters, social media etc

A reminder that over the next few months Council will be conducting a lot of community consultation, about the project overall and specific sections about to be built. They offer great opportunities to connect with your community and fly the Rotary flag.

There will be an opportunity at Peter's Cluster Presidents Meeting on April 30 to discuss where your club is at and wants to go with your projects related to the Peninsula Trail.

As usual, let me know if I can help with more ..

Regards

Ross
